## The War.

The Ulema preaching a holy war for Arabi Pasha, who continues to issue orders in the Khedive's name. His forces number about 10,000 and are believed to be increasing. Much chagrin is expressed by foreigners that he has been allowed time to gather reinforcements. Alexandria is quiet, but the people of Cairo are turbulent, and it is feared that the European quarter of the city will be burned. In the Commons Gladstone assumed full responsibility for Admiral Seymour's action. In the Chamber of Deputies Gambetta approved De Freycinet's course in adhering to the alliance with England. The conduct of the American Admiral and his marines is highly praised in England. French retired marines have been ordered to return to the navy.

It is reported that Arabi Pasha is preparing to move. The disappointment and indignation are most keen at the great blunder made in allowing the favorable moment for ending the revolt at a stroke to slip by, while troops are detained in a state of inactivity by orders from home. The natives state that during the retreat of Arabi Pasha one of the shells burst in the midst of a body of soldiers and killed two hundred.

## A Presidential Visit.

Next month President Arthur and members of the Cabinet will visit the Denver, Colorado, Exposition. It is understood that the Presidential party will afterward extend their tour to San Francisco, coming by the Atchison, Topeka and Santa Fe and the Southern Pacific Railroads. The report of the President's intended trip comes through a trustworthy channel. President Arthur will be the second Executive of the United States to visit this coast during his term of office. There is no doubt he will receive as cordial and generous a reception as was accorded President Hayes.

Last week a subscription was started in Boston for the widow of John Brown, the Harper's Ferry martyr, which Mrs. Ralph Waldo Emerson headed with \$100. Some two years ago citizens of California raised about \$3,000 for Mrs. Brown, and even then it was claimed by some of her family that she was in easy circumstances. That fund was intended to raise an alleged mortgage on her farm in Santa Clara county, and there does not appear to be any necessity for further contributions at this time. However, there is no law prohibiting Bostonians or anyone else from opening their rusty purses if they want to. The money will do more good out of them, perhaps, than in them.

The news of the death of the widow of Abraham Lincoln does not come unexpectedly. She had been in failing health for years, and for several years past her mind was somewhat impaired. It is thought that her mental trouble was caused by the terrible and sudden fate of her husband. Her death recalls that awful tragedy in Ford's Theater in Washington, when as pure a patriot as has ever occupied the presidential chair was stricken down in the prime of his life and the midst of his usefulness by the hand of the assassin. Robert Lincoln, the Secretary of War, is the only living representative of the family now.

The consolidation of city, township, and county affairs has been reduced to so fine a point that in Gold Hill the office of Town Marshal has been declared vacant, and the duties of the office put upon the Justice of the Peace, at a salary of \$75 per month, a saving of \$50 on the Marshal's salary. The Justice can now arrest and try all offenders. He combines the police and judiciary of the Gold Hill and of the Comstock, and ought to have things pretty much his own way.

The King of the Sandwich Islands has sent an order to a Boston firm for two new thrones. Queen Victoria, King William, Alfonso, Humbert and other royal personages are satisfied with one throne. Why Kalakaua wants a couple of them is a mystery. But it is characteristic of ten-cent monarchs to be extravagant.

The Suez canal has long lines of artificial embankments, which only require to be breached in order to permit the confined waters to escape into the adjoining deserts. Besides, there are numerous places where the canal may be easily blocked up. No wonder England is fidgety.

Havana vessels with yellow fever on board are beginning to show themselves along the coast. We can always count

## Earthquakes in 1891.

According to a German publication there were 244 earthquakes during the year 1891, some of them being vibrations of the great shock at Agram. The year will be remarkable for one of the greatest earthquakes on record that which defaced the most beautiful island of the Greek Archipelago Chios. The earthquake lasted six days in full strength, there being thirty or forty very violent shocks. The first shock laid most of the town of Castro in ruins. During the continuance 4,181 persons were killed and about 1,000 injured. The only other earthquakes during the year which caused any serious loss of life happened in Ischia, where 150 persons were killed. At Orogua, in Abruzzo about 1,000 houses were laid in ruin, but no loss of life occurred.

## Politics Enough for One State.

There is unquestionably more politics to the square foot in Maine to-day than any other State in the Union, not excepting Pennsylvania. Already five political State Conventions have been held, and a call has been issued for the sixth; five full State tickets are in the field, and probably another will be added to them. They are labeled respectively, in the order of their appearance, straight Greenback, Temperance, Regular or Fusion Greenback, Republican and Democratic, with the dissatisfied and temperance men yet to be heard from.

Until one sees the figures and remembers them from year to year, no one can understand the rapidly with which this country is filling up. The continent will soon be one vast conglomeration of cities and towns, settlements and ranches. The numbers of immigrants now arriving every week are greater than any month of last year; they are mainly Irish, English, German and Swedish; they mostly come to settle the cheap and fertile lands of the States and Territories west of the Rocky mountains, and the northwest in particular is the Mecca to which their eyes are turned.

Count Telfener, who married Miss Ada Hungerford, Mrs. J. W. Mackey's sister, is an alert and business man. Both his title and his enormous fortune were won by hard work and successful business ventures in Italy. He is now deeply interested in American mines and railways, and expects to spend much time in this country. He was a bosom friend of Victor Emmanuel, and has often entertained King Humbert at his palatial villa in Rome.

According to all accounts Arabi Bey is not inclined to act in a fashion that will endanger his personal safety. During the bombardment he was sheltered in Fort Napoleon, a work from which not a single shot was discharged during the entire engagement. Some of the Egyptian guns were fought with ferocious valor, but Arabi was not in their immediate neighborhood. His particular genius seems to be in the line of raising a row and standing aloof.

Governor Kinkaid informed our reporter day before yesterday that he had heard nothing from Senator Fair concerning the Denver Exposition, and that he had written to others to try and arouse an interest in this important matter. The time is getting so short now that it will be hard work for anyone here to do much in the way of collecting a fair cabinet for exhibition. In Nevada to be the only mineral State not properly represented?

The Eureka Leader says that the appointment of Sabin as U. S. District Judge is a certainty. General Sabin received a dispatch from Jas. E. Anderson, which stated briefly that there were excellent reasons for delay in the appointment; that the salary would be increased to \$5,000, and that his appointment was certain, and would be made very soon.

Senator Logan, of Illinois, has introduced a bill which practically nullifies the anti-Chinese ten-year bill. Those Eastern people ought in common justice to give the law a fair trial, but they cannot keep their hands off and must forever be meddling with what only concerns this Coast.

It was left for a Sacramento firm to introduce a new feature in advertising. They have a double column and in the middle of their price-list insert a portrait of some prominent man, with a biographical sketch of his life. This is enterprise.

Postmaster General Howe denies that arrangements for a through fast mail between the Atlantic and Pacific coasts have been perfected, but hopes that they may be soon.

The new Legislature of Oregon will elect a Senator, and ex-Attorney Gen-

PRICE OF DAILY JOURNAL,  
12 1/2 CENTS PER WEEK.

TOWN AND COUNTY.

## BREVITIES.

Strawberries have disappeared for good.

A daily thunder storm seems to be our fortune.

Yesterday was not the Fourth of July—it was circus day.

Chase & Thyes continue to mix all sorts of fancy drinks.

The Auburn mill will be repaired and ready to run in a few days.

An impromptu boxing match on Virginia street yesterday attracted quite a crowd.

Dr. Hogan declares his intention to run for the Assembly this Fall. On the Greenback ticket?

Seventeen-year loonists have made their appearance on the Comstock and howl on every bush.

Hoffman's water wheel has been steadily lifting water in the English Ditch for the past seven years.

Farmers are doing all they can to save their alfalfa from spoiling. The rains greatly demoralized them.

W. Sanders received yesterday the news of his sister's death in Nova Scotia. She had been sick a long time.

Those tramps who went down to the Thomas ranch yesterday made themselves solid on the work proposition.

Not a drop of rain fell in either Verdi or Glendale day before yesterday, while at Reno we had a young deluge. Even the gods favor Reno.

Sixty-five of the circus people sat at the Depot Hotel yesterday at dinner. John Robinson's circus has the reputation of always patronizing first-class hotels.

We are informed that the Knights of Pythias intend to have an excursion from Carson City and Reno to Donner Lake. It is contemplated to have it sometime in August.

If it takes a boy twelve years of age twenty-two minutes to bring in six small sticks of wood, how long will it take him to walk a mile and a half to see a circus procession?

As this is political year and all State and county officers are to be elected, every voter in the States should keep posted in the political news, and they can do so by taking the JOURNAL.

How many boys three feet tall will it take to climb over a wall five feet high and carry off half a bushel of harvest apples? This must be figured by the rule of three—two boys and the old man's dog.

The town scavenger firm of Bartolo Berasi and Co., is doing some excellent work on Virginia street. They filled up several chuck holes in front of Nasby's store and Nasby who is an old (newspaper) scavenger himself smiled a smile that could be felt two blocks off.

While in Humboldt Alvaro Evans purchased a lot of those Hancock and English bed-quits for his herd. He was "toting" them out of town when the Silver State reporter spotted him and published that he was carrying a H. & E. banner. Evans is explaining the affair to all enquirers.

The Silver States intimates that Reno treated that tramp who had his foot hurt at Lovelock's in a heartless manner. Drs. Bergman and Bishop examined the wounded man and found only a bruised ankle. They told him to bathe it in cold water and all would be well. The Silver State could hardly expect these professional gentlemen to stand over him and do it themselves.

## A Splendid Strain of Animals.

Yesterday evening there passed through Reno westward a number of the very finest sporting dogs ever seen in the town. They were the property of Mr. Lounsedale, of Oregon, who was going to Portland. Two of the animals were Irish setters of the purest breed, and the others pointers of an English strain. Besides, another passenger on the train had a couple of fox dogs from Italy that would delight a sportsman's heart to look at.

## Our Reno Fat Boy.

It may not be exactly appropriate to blow too much about Reno, still it cannot be denied that Reno has got a good many blowable good qualities. Yesterday afternoon a JOURNAL reporter saw an exhibition of strength that was quite astonishing. Wm. Hoffman, Jr., placed his hand on the back of a chair and allowed a man weighing over two hundred pounds to jump on his outstretched arm with all his strength, without ever flinching. His arm at the muscle is over twice the size of an ordinary arm. Mr. Hoffman is about the heaviest and fattest young man in town, but conceals

## TARGET HITTERS.

Our Bull's-eye Champions — The Best Shooters of the State.

The JOURNAL's object in noticing the late shooting trials here in Reno, in "extensio," as Charley De Young used to facetiously remark, has borne abundant fruits. This afternoon at four o'clock a tough shooting mill will take place at the shooting gallery on Virginia street between Robert Hoy, "Spider," Charley Stoddard and George Avery. Each of the contestants is as jealous of his shooting record as he would be of his personal honor—in fact, more so. The JOURNAL is determined to advance Reno in every jot and tittle in its power, and if the riverside town can carry away a dozen prizes at the coming shooting contests, besides showing the Carson and Virginia sportsmen that we can shoot as well as any of them, we will take pride in helping the sport along. When Reno gets left either in a shooting match or transportation scheme, decapitations of the liveliest French Revolution style will be in order. Shooters from all over the State will possibly be engaged in a friendly contest before long at some one of the coming picnics. Other towns are preparing for the match and exerting every nerve to win. If Reno were to get away with several of the shooting prizes our local shots would awake some morning to find themselves appreciated as they deserve to be. Let every one who claims to be a sportsman or possesses the instincts of a fine shot go to the gallery this afternoon and see the contest. It will be a sight worth seeing.

Local sharpshooters are contesting for the \$35 rifle put up for the best shot by the shooting gallery. A score of 65 is possible in five shots. So far the highest score is 60—made by C. H. Stoddard and R. F. Hoy. The owner of the gallery says 62 is the highest he ever saw made. The 13 section is about the size of a bullet, the 12 as big as a ten cent piece and the 10 as large as two-bits. It takes good shooting to get a bulls-eye.

## Sunstroke Cure.

It is not known, we believe, that a case of sunstroke ever occurred in Nevada, but there is no telling what new thing may happen nowadays, when the weather is up to such strange freaks. But in case of emergency, the following is recommended as an effective cure of sunstroke: Remove the patient to a shaded spot at once. Place the body in a sitting posture, with the back resting against the wall and the feet and legs on the sidewalk and extending in front of the body. Get ice-water and a bottle of strong essence of ginger. Pour the ice-water over the head copiously; never mind the clothes. Then pour two or three table-spoonful of ginger in a half tumbler of water and make the patient swallow it quickly. Keep the head cool by using a little ice-water, and in case there is not much of a glow upon the body give more ginger. If the directions are followed there be no occasion for the services of an undertaker. Ginger is far the best to use, but where it cannot be had two or three good drinks of brandy will answer.

## A Puzzle of a Shower.

While to numbers of the inhabitants of our railroad town the shower has been a benefit, to numbers of others it has been an injury, damaging their crops of hay. This fine shower adds to the embarrassment of the persons who endeavor to define and assign the part that Providence took in the late rain. A JOURNAL reporter heard one farmer who had his grain all cut and in, complacently thanking Heaven for the goodness displayed in sending such a shower. Another farmer who had neglected to gather in his hay or store it away under shelter bewailed the occasion of such a rain storm and condemned Providence right and left. What a sad commentary on human nature such occurrences reveal to the world.

## Reno's Baby Traps.

The drowning of two children within the past month is drawing the attention of thinking people to these public death traps for little ones. While it is impossible to fence the ditches their entire length, still there are many localities where either the company or parties living in the dangerous vicinity and having young children should erect a fence of some kind as a precaution. These accidents are becoming entirely too frequent, and before long the city may be aroused to a sense of its duty by means of a fine lawsuit for damages on her hands. There is nothing like a monetary attack on the pocket to arouse municipalities as well as private folks.

## Fair Privileges.

The following privileges will be sold at auction, to the highest bidder, on Saturday, September 2, 1882, at two o'clock P. M. Bar privilege, grand stand, pool selling, fruit and confectionary stand; also refreshment stand in the pavilion. We publish this for the benefit of any Renoites who may desire to

## Our Bold Hunters, Bearding the Bears and Lions in Their Den.

Wm. Goeggel, Chas. Loomis and Johnny McIntosh, all well known and liked business men of Reno, are going off to-morrow on a pleasant little mountaineering trip. They will ascend the peak of Mount Rose, the frowning peak west of Washoe valley, and from the summit take observations both meteorological and photographic. Mr. Goeggel is an old tourist and has been all over Switzerland, and the Alps. He declares that in the whole course of his mountaineering experience, he has found that the mountains of the old country, about which so much has been said, can not be compared by candle light with our own magnificent Sierras. The members of the party are all experienced tourists and hunters, and the business men of Reno must be prepared for a disastrous fall in the price of panthers, bears, quail, trout and other game. Persons desiring to join the party will be cordially welcome.

## Personals.

Mrs. Matatal from Virginia, is here on a visit.

Two of C. T. Bender's children are down with the scarlet fever.

State Treasurer Crockett is again able to attend to his official business.

B. F. Leete the well known gas man has gone on a trip to Greenville.

Pete Boyle was run over and killed on the railroad near Truckee Meadows.

Bobby McGinley, the irrepressible, is here. He has married a wife. His sister Alice is with him.

P. J. Kelly is spoken of as a Democratic aspirant for the nomination for County Commissioner.

Miss Flora McKay leaves on Monday to live in Bodie. She will reside with her sister Mrs. Gillispie. Flora has been raised in Reno, and will be greatly missed by a host of friends.

## Locomotive Engineer's Library.

Wadsworth boasts of one of the best libraries in the State of Nevada, which is conducted by the locomotive department of the C. P. R. R. The semi-annual report for the six months ending June 30th, 1882, gives a membership of 63. The library contains 1,203 volumes. Books drawn in January, 145; Feb., 133; March, 168; April 151; May, 143; June, 151; making a total of 891. Besides their library of historical, biographical and poetical works, and works on travel, poetry, fiction and miscellany, the leading magazines, newspapers and local papers are taken.

## Testimonial Concert to Prof. Ring.

All who have ever attended school under Prof. Orvis Ring are desired to be at the new school house this afternoon at 1:30 o'clock for the purpose of arranging a testimonial concert. Mr. Ring has labored long and faithfully for the children and they desire to show him that his efforts have not been in vain. The intention now is to have an evening's entertainment of song, recitation and speech and possibly a feature or two may be introduced, the remembrance of which Mr. Ring will cherish as long as he lives. Let all of his scholars be on hand.

## A Magnificent Goat.

W. K. Ball, who has a ranch a short distance out of the town limits, was in yesterday interviewing the business men of Robinson's circus. He has a curiosity that Barnum would drop on quicker than a thousand of brick—a fine merino and Cotswold goat with five of the prettiest horns a man a little cornered would delight to gaze at. The animal is a year and a half old and has yielded for one year's shearing nine pounds of wool of the finest character. Mr. Ball expects to get over a hundred dollars for the animal.

## Reno's Splendid Climate.

Yesterday Dr. Dawson, Superintendent of the Insane Asylum, discharged two of his patients as cured. Their names were Timothy Dooley, of Gold Hill, who has been insane for five years, and James Rodin, of Austin, a year and a half. The effect of Reno's wonderful climate on the insane lately moved from California is becoming markedly observed. At this rate, in a short time, all except the utterly incurable patients will be renovated by the air of the State and able to be discharged.

## An Old '99-er.

Hugh McCrum of the well known liquor firm of Sroufe & McCrum, is taking a popular trip through the State. Hugh is as well known in Nevada as sage-brush, and as popular as the article he sells. Yesterday, the firm of Manning & Berry, our townsmen, ordered from Hugh ten cases of the famous Blue Grass Bourbon. Business men like Manning & Berry know what is good, and where to get it. Mr. McCrum left for Truckee last night.

## Big Rattlesnake.

Yesterday when J. A. Ferguson had got as far as Mayberry on his way to Lake Tahoe, he saw a big rattlesnake in the road in front of him. He promptly killed it. Upon measuring he found it to be four feet six inches long and had 13 rattles. He reserved the last as a relic of his victory.

## A Victory by a Reno Army.

Reno has always possessed the reputation of being the boss town in the State for love matches. Balls and surprise parties are the means generally by which many of our sweet boys and girls enter the hymenial ranks. Wednesday night a whole army of Reno's favorites invaded the home of Miss Nellie Sullivan and captured the entire residence. The Reno army in Egypt was led by Generals F. M. Lee and E. D. Waggoner, who conducted the campaign in fine style. Among the prominent captains and privates, noticed by a JOURNAL reporter who reconnoitered the scene at the hazard of his being captured were George Hymers, Louis Queen, Charles Dixon, Frank Lee, Denver Waggoner, Rural Waggoner, Walter Palmer, Dickie Jose. The following cantineers were noted, who refreshed the boys with lemonade and lots of conversation; and (we hesitate to state it)—taffy: Misses Etta Smith, Annie Crutcher, Emma Cutting, Lexie Finlayson and Mollie Anderson. Games of all sorts were kept up, Miss Sullivan entertaining her surprising friends in the most charming manner. About midnight a fine supper was debated over and the JOURNAL reporter swears on his veracity that from his hiding place in a corner closet, he saw two kisses meet and separate so that he imagined the storm of yesterday had broken out fresh. The surprise party was a most enjoyable affair.

## Dan Rice.

Yesterday morning Dan Rice, the famous clown of the Robinson circus, was enthroned in front of the Arcade saloon, the cynosure of all eyes. Dan is evidently getting old at a rapid rate. The old man of the scythe is after him as after us all. He preserves the humor, though, which has made him such an immense favorite with the public.

## Truckee Matters.

(Republican 19th)

The railroad company are removing the old wood shed, near the track just below town, the new shed being commodious enough for all purposes.

M. Garver, the assignee of the Banner Mill & Lumber Co., is busily engaged in setting up affairs, and the dividend is expected this week. It will be about 40 per cent.

The dam of the Truckee Lumber Co., is in thorough repair and again filled with water. The factory was started up Monday, and all hands went to work after a good rest.

We learn from some campers and several town folks who have lately been fishing in Donner Lake, that the chub are again dying off, and are washed ashore. It is said that trout also die, but they sink. It will be a calamity if the experience of last year is to be repeated, for this beautiful resort will become depopulated it continues. Some think that parties have been at work with giant powder.

## The School Master Abroad.

We have received this letter, which we publish as near like the original as type can be made to imitate writing. It is very evident that the writer does not like the Bonanza folks—lost on stocks, probably:

VIRGINIA CITY, July 19, '82.  
TO THE RENO JOURNAL:—Please give me notice in your paper to the public that whenever Senator J. G. Fair passes through Reno on his way to Virginia City to give him a good coat of Tar as soon as he arrives here we will put on the fethers we are inclined to think that he dare not come here John Mackey came here in The Night left in The Night he was not seen on the streets while here the shal gitt for their robbery you will hear more after a little  
a residence

## Mothers! Mothers!! Mothers!!!

Are you disturbed at night and broken of your rest by a sick child suffering and crying with the excruciating pain of cutting teeth? If so, go at once and get a bottle of MRS. WINSLOW'S SOOTHING SYRUP. It will relieve the little sufferer at once—depend upon it: there is no mistake about it. There is not a mother on earth who has ever used it who will not tell you at once that it will regulate the bowels, and give rest to the mother, and relief and health to the child, operating like magic. It is perfectly safe to use in all cases, and pleasant to the taste, and is the prescription of one of the oldest and best female physicians and nurses in the United States. Sold everywhere. 25 cents a bottle. NO. 11 KEARNEY ST.

Treats All Chronic and Special Diseases.

YOUNG

WHO may be suffering from the effects of youthful follies or indiscretions, will do well to avail themselves of this, the greatest boon ever laid at the altar of suffering humanity. Dr. Spinney will guarantee to forfeit \$500 for every case of Seminal Weakness or private disease of any kind or character which he undertakes and fails to cure.

MIDDLE-AGED MEN.

There are many at the age of thirty to sixty, who are troubled with too frequent evacuations of the bladder, often accompanied by a slight smarting or burning sensation, and a weakening of the system in a manner the patient cannot account for. On examining the urinary deposits aropy sediment will often be found, and sometimes small particles of albumen will appear, the color will be a thin milky hue, again changing to a dark and torpid appearance. There are many men who die of this difficulty, ignorant of the cause, which is the second stage of seminal weakness. Dr. S. will guarantee a perfect cure in all such cases, and a healthy restoration to the genito-urinary organs.

Office hours—10 to 4 and 6 to 8. Sundays from 10 to 11 A. M. Consultation free. Thorough examination and advice, \$5.

AYER'S CHERRY PECTORAL

For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma,

AND CONSUMPTION.

The few compositions, which have won the confidence of mankind and become household words, among not only one, but many nations, must have extraordinary virtues. Perhaps no one ever secured so wide a reputation or maintained it so long as AYER'S CHERRY PECTORAL. It has been known to the public about forty years, and has won for it a confidence in its virtues, never equalled by any other medicine. It still makes the most effectual cures of Coughs, Colds, Consumption, that can be made by medical skill. Indeed, the CHERRY PECTORAL has really robbed these dangerous diseases of their terrors to a great extent, and given a feeling of immunity from their fatal effects, that is well founded if the remedy be taken in season. Every family should have it in their closet for the ready and prompt relief of its members. Sickness, suffering, and even life is saved by this timely protection. The prudent should not neglect it, and the wise will not keep it for you for the protection it affords by its timely use in sudden attacks.
